Nature's Cure

Body Acne
Treatment Spray

Nature's Cure Body Acne Treatment Spray, clears and prevents acne on your back, chest, neck and arms. The maximum strength 2% salicylic acid formula comes in a specially designed pump that sprays from any angle, even upside down, to treat acne in those hard-to-reach places - even the middle of the back. It fights body acne that can be caused by sweating and friction from athletic gear and clothing. The non-staining spray penetrates pores to eliminate most acne pimples and contains moisturizing botanicals that help soothe skin. The spray can be used all over your body.

INDICATIONS: For the treatment of body acne.

DIRECTIONS: 1. Cleanse skin thoroughly before applying spray.
2. Spray to cover the entire affected area with a thin layer one to three times daily. Rub in if desired.
3. Leave on all day or night.

The non-staining spray can be used anywhere on the body. Do not spray directly on or near your face. To use on the face, spray onto a cotton ball, and brush onto skin. Because excessive drying of the skin may occur, start with one application daily, then gradually increase to two or three times daily if needed or as directed by a doctor. If bothersome dryness or peeling occurs, reduce application to once a day or every other day.

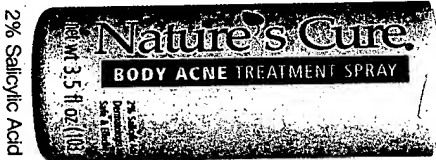

* Patent Pending

WARNINGS: For external use only. Do not spray directly on or near your face. Avoid contact with eyes, lips and mouth. If contact occurs, flush thoroughly with water. Using other topical acne medications at the same time or immediately following use of this product may increase dryness or irritation of the skin. If this occurs, only one acne medication should be used unless directed by a doctor. In case of accidental ingestion, seek professional assistance or contact a Poison Control Center immediately. Flammable until dry. Keep away from extreme heat or open flame. Keep out of the reach of children.

net wt 3.5 fl oz (103ml)

DERMATOLOGIST TESTED

NDC# 61436-192-03
